Dear Michael

On behalf of our boys, coaches and parents I would like to offer a sincere word of thanks to you and your hard working team for the amazing work done in hosting another very enjoyable and successful WPPS Centenary Prep Schools' Rugby Festival held a few days ago.

Although I was not able to make the journey to the Mother City myself, I understand that the warmth of the atmosphere that was there for all to enjoy and the convivial spirit that the WPPS family is so renowned for was on display in abundance and provided for, not only a stunning festival of rugby, but did so in a way that added much to all that the participating schools, through their boys, coaches and parents, were able to enjoy together.

Special thanks must go to your organising committee that was tasked with bringing the festival programme together, and making sure that all ran smoothly. They are to be congratulated on all that was achieved and on having successfully co-ordinated every special facet and feature into place in ways that added much to the participating and viewing pleasure for all concerned. Please will you convey my sincere thanks to them all.

I take it that you have been able to enjoy a few days off during this most recent public holiday weekend. Having experienced and lived through the Highbury Centenary year some time ago I can certainly attest to the many added, but mostly enjoyable, stresses and strains of the programme that needed the oversight and support of the headmaster.

I wish you and your team God's blessings and a very successful and memorable rest of, what will, I know, will be a magical year for you all.

Warm regards and in appreciation

Richard Stanley
Headmaster
